LOS ANGELES DEPARTMENT OF TRANSPORTATION ANNOUNCES CITY STREET CLOSURES FOR ASICS LA MARATHON

LOS ANGELES, CA (March 3, 2014) — The City of Los Angeles has finalized street closures, restricted parking, as well as security and public safety measures, to support the 29th annual Los Angeles Marathon.

The 26.2-mile ASICS LA Marathon will trek along a similar route to last year, going from downtown's Dodger Stadium to the Pacific coast. Along the way, participants will again pass some of Los Angeles' most famous landmarks and journey through diverse neighborhoods. The race begins on Sunday, March 9 at 6:00 a.m. for hand cycles, 6:55 a.m. for wheelchairs, 7:10 a.m. for elite women's field, and 7:25 a.m. for all other participants.

Various streets along the marathon route will be closed by 3:15 a.m. on March 9, then reopen as early as 10:15 a.m., depending on the location. Streets will reopen by region because of the size and complexity of the event route. Numerous agencies, including the California Department of Transportation and the City of Los Angeles Police and Fire departments were consulted in the planning process and agree that the finalized plan is the best way to accommodate all of the parties involved.

LADOT will begin to strictly enforce a restricted, no-parking policy for the marathon on the dates and times listed below. This will include the citing and impounding of vehicles parked on these temporarily restricted, no-parking streets. Vehicles will be towed to the Official Police Garage (OPG) servicing those respective areas, at the request of the Department of Transportation. Motorists are advised to call (213) 485-4184 and select option 2 or check the OPG website at www.opglaviic.com to locate and redeem vehicles.

The attached list details the street closures, and their approximate times, within the City of Los Angeles. Three other municipalities — West Hollywood, Beverly Hills and Santa Monica — will likely institute additional street closures.
