

SPEED HUMP REQUEST – “STEP 2”

City of Los Angeles Department of Transportation **APPLICATION FOR SPEED HUMP STUDY**

AT THIS TIME, THE “STEP 2” FORM IS CLOSED
AND WILL COME BACK ONLINE PER THE SCHEDULE/INFO BELOW

Step 1 - Applicants should note that the request for speed humps is a 3-step process that includes multiple levels of review.

LADOT accepts applications during its “**open application process**” which opens up twice annually. Step 1 requires that a person from your block signs up to serve as a liaison/contact person for this process and fills out nine questions online. The most recent dates for “Step 1” (the intake for requests on a first come, first served basis) are listed below:

- **Sep 12, 2018**
- **Wednesday, May 1, 2019**
(8:00 a.m.) until the max number that can be processed is received.

Step 2 – If you registered during step 1, you then must email (or mail) in the authorized form that shows that 50% of the residents on your street support studying the issue to put in speed humps. (Note: Step 2 forms are only provided to, and accepted from, those who completed Step 1 above.) BOTH steps are needed for staff to schedule you for a study.

Step 3 - After LADOT conducts a study, if a completed Step 2 form is received, they will notify you if your street was approved for construction. (If your street was denied, you will receive a letter with an explanation.) If your street was approved for construction, you will go to Step 3, which is an online balloting process for your neighbors to vote that they wish the humps installed. If your street passes with 2/3 of the residents agreeing to the humps, humps will be placed according to the concept plan provided to your street as part of the balloting process.

(We receive hundreds of applications each cycle so we thank you in advance for your patience AND look forward to supporting you during the next open application period.)
